SuiteRequest™

**A Universal RemoteRequest Generator, Server & Processor(Includes Events from SuiteMonitoring)
Operators can Remotely Request and Send Files to and from SuiteFactory
Machine Tools can DPRINT Events to SuiteFactory whether from Macros or embedded in N/C Files
SuiteMDI can Submit Manual Data/Events to Suitefactory for Processing by SuiteRequest
Part of an Integrated Family of SuiteFactory™ EventAware™ Modules
For Windows 7™/Windows XP™ including Terminal Server Support**

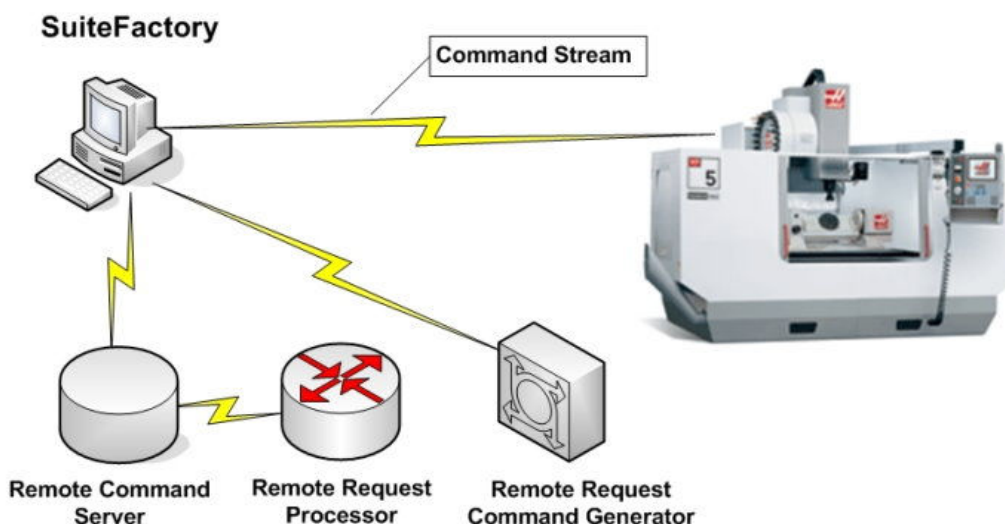

SuiteRequest™ is an Univeral RemoteRequest Command Generator, Server and Processor. It is used to Generate a Complete set of "Machine Tool to SuiteFactory" Remote Commands formatted specifically for each type of controller. Any Events create with SuiteMonitoring can also be processed by SuiteRequest!

These Remote Commands can then be stored on the CNC Controller where an operator can output these to SuiteFactory's RemoteRequest Command Server and Processor for Requesting Immediate Service for any valid Command. These "Commands" can also be information about Production, Maintenance, Probe Data, etc. These "Commands" are limited only by your imagination!

The Command Server receives these Commands to which SuitFactory's Command Processor parses, analyzes, records, emails(if set) & responds appropriately.

SuiteRequest™ A Universal Remote Command Generator, Server and Processor

Remote Request Generator, Server & Processor

Standard:

<p>SuiteRequest's™ Basics</p>	<p>SuiteRequest's™ Basics Include:</p> <ul style="list-style-type: none"> • EventAware™ Technologies(Real-Time Updates from all Remote Commands) • A Command Generator • A Command Server • A Command Processor • Can Processor Events Created with SuiteMonitoring
<p>SuiteRequest's™ Command Generator</p>	<p>Use the Command Generator to Customize Commands for Controller Types:</p> <ul style="list-style-type: none"> • Abort Transfer • Clear Queue • CNC E-Mail • CNC E-Mail Template (Upload Template with Explanation on How to Use) • Command Template (Upload All Templates with Explanation on How to Use) • Get DNC File and Loop • Get DNC File Once • Get DNC File Once by Drip Feed • Help (Custom Help Files for Specific & Generic Machine Tools) • Help Topics (Custom Help Topics for Specific & Generic Machine Tools) • List DNC Files (List of Files for this Machine Tool. Includes: File Name, Size, etc.) • List Templates (Upload Template with Explanation on How to Use) • Machine Events • Operator Identification • Queue to Save • Replace • Save This DNC File • Send Selected DNC File • Start Next Item on the Queue
<p>SuiteRequest's™ Command Server</p>	<p>The Command Server Provides:</p> <ul style="list-style-type: none"> • The Active Communication's link from the CNC To: <ul style="list-style-type: none"> ◦ SuiteFactory ◦ SuiteShop ◦ SuiteMonitoring

	<ul style="list-style-type: none">◦ SuiteDNC <p>Note: This link provides a Data Stream so that any Commands, Files or Events that are being received by SuiteFactory™ from a Machine Tool and or SuiteMDI are forwarded to the Command Processor so they can be: Parsed, Analyzed and depending on the Command or Event either Saved and or can Generate Appropriate Responses.</p> <p>The Appropriate Response(s) to the Commands recieved from the CNC are prepared by the Command Processor and forwarded to the Command Server to send to the CNC.</p>
<p style="text-align: center;">SuiteRequest's™</p> <p style="text-align: center;">Command Processor</p>	<p>The Command Processor Provides:</p> <ul style="list-style-type: none">• The Parsing, Analyzing, Saving Files, Data and ISO Histories and prepares the responses to the Commands forwarded to it by the Command Server. These Commands can be any of the above List of Commands including any number of embeded parameters.• The "Responses" can be sent, saved and or stored in SuiteDNC's™ Database for later generating Reports using SuiteReports™ or Charting using SuiteCharts™. These "Responses" may also include Error Generation(I.E. notifying a CNC operator that a file is not available, was not saved, etc.) , Emailing information from a CNC Operator, etc.
