29 years Providing Working Solutions for Manufacturing!

SuiteShop™

**An Enterprise Management & Communications Manufacturing Application
That Manages, Captures, Analyzes & Presents Data in Real-Time allowing Companies
To Make Informed Decisions that effect their Operation's Profitability
Supports Windows 7™/Windows XP™, Citrix™ including Terminal Server Support**

SuiteShop™ is part of SuiteFactory's Enterprise Management System's Suite of Secure Integrated Manufacturing Applications built upon CAD/CAM Integration's Standard and Optional Modules. These Modules' are founded upon EventAware™ Technologies keeping Manufacturing Users and Applications in Sync.

SuiteShop™ is a Complete Shop Floor Management System that keeps Users and Applications in Sync by continuously "Listening" & "Responding" to Customer Creatable & Settable Events. These Customer Based Critical Events trigger the Capturing, Recording and Analyzing of Manufacturing Data in Real-Time so Users can make informed decisions using Real-Time & Accurate Data.

This Captured Manufacturing Data can then be Managed and Analyzed using a Host of SuiteShop Tools including SuiteFactory's™ SuiteThirdPartyTools™ which provides a connection to a Customer's Third-Party Applications. If you use Citrix You can be anywhere in the World and access SuiteShop using your Smart Phone, Tablet or Laptop since SuiteFactory Supports Citrix!

SuiteShop™ Part of a Suite of Fully Managed Integrated Application with International Language Support

Is your Shop a Well Oiled Machine? Do all your Gears Mesh? Don't Grind Gears when Operating Your Shop! Use SuiteFactory for a Smooth Managed Efficient Operation!

<p>Universal Protocol Generator</p>	<p>Using SuiteFactory's™ Universal Protocol Generator you can:</p> <ul style="list-style-type: none"> • Generate virtually any RS232/UNC/FTP Communications Protocol. • Support virtually any request(Download, Upload, Email, etc.) From the Machine Tool. • Support any UNC Controller. • Support any FTP Controller. • Select From Many Binary Protocols such as Mazatrol.
<p>SuiteRequest™</p>	<p>SuiteRequest™ is an Universal RemoteRequest Command Generator Server and Processor that:</p> <ul style="list-style-type: none"> • Allows Personal to Request their Files right from Their Machine Tools • Generates the complete Remote Request Set • Intercepts Requests from the Machine Tool • Replies to the Remote Requests from the Machine Tool • Records Remote Request Results
<p>SuiteHelpFiles™</p>	<p>SuiteHelpFiles™ is an Universal Help Generator that allows you to:</p> <ul style="list-style-type: none"> • Create "Generic Help Topics" without limits for use by any and all machine tools • Create "Default Help Topic" for a specific machine tool • Create "Specific Help Topics" for a specific machine tools <p>Note: Why would you want to create and use Help Files? Well, are you required to keep OSHA Documents, Quality Proceedure Documents, Basic Machine Tool Operation Proceedures, Fixture Instruction, List of Phone-Contacts, Email Addresses (SuiteFactory allows sending emails from CNCs), etc. If the answer is "Yes" then you can use SuiteFactory's Help File capabilities. A User can use SuiteFactory's Remote Request to download a Managed & Controlled Help File of any Topic be it Generic, Specific to their CNC or a Default Help File. SuiteFactory automatically puts the Text in correct Comment format for the CNC Operator. You don't need to keep documents at the Machine Tool which could be lost, changed or outdated. You can Use SuiteFactory's Editor to create Help Files from existing documents or from scratch. Why create any number of Note Books which clutter up the Operator's workplace when they can just request it like any other N/C File? This is a digital world!</p>
<p>SuiteReports™</p>	<p>SuiteReports™ for SuiteShop Supports the Following Categories:</p> <ul style="list-style-type: none"> • Configurations: Setup Details; Workstations with Details;Resource Collections with Details; Machines with Details • DNC Files: General Reports 7 categories; History Reports 16 Categories • Controlled Documents: General Reports 8 categories; History Reports 5 Categories • Packets: General Reports 9 categories; History Reports 5 Categories • Machine Events: General Reports 9 categories; <p>Note: All of these reports can be filtered using SuiteFactory's SuiteFilter which will allow you to create reports based on settable: Time Frames; Users; Machines; Events Major & Minor; DNC Files; etc.;</p>
