29 years Providing Working Solutions for Manufacturing!

SuiteTracker™
An ISO9000 Document Control Management Module
Record & Track All Changes to your Files: Office, Engineering, Manufacturing, Quality . .
Part of an Integrated Family of SuiteFactory™ EventAware™ Modules
For Windows 7™, Windows XP™ including Terminal Server Support

SuiteTracker™ is a SuiteFactory™ Module that has over 120 Events that can configured to capture almost any change to your N/C Files, Documents and Packets meeting ISO9000 Documentation Requirements. If you're truly maintaining ISO9000 Traceability you are required to Capture & Record the Who, What, When, Where and Whys of all changes to any File and or Document.

SuiteTracker™ not only provides these capabilities but also provides the ability to create any number of customer "Event Reasons" for these Captured ISO Events. You can then use SuiteTracker™ to Associate particular Event Reasons with a Particular Event. Now couple this with the ability of select only the Events you want to activate & capture and you have complete control over your ISO9000 Documentation Requirements!

SuiteTracker™ an Integrated ISO9000 Traceability Module

Features:

Features:

SuiteTracker™ Basics

SuiteTracker's™ Basics Include:

- EventAware™ Technologies (Real-Time Capture & Display)
- Activate Event Capture (Up to 121 Events)
